GCF and Clean Air Action
Better Air Quality Conference, 16 November 2023

Marcus Mayr – Urban Sector Specialist
GCF Results Ares related to Air Quality

Reduced Emissions From:

- Energy generation and access
- Transport
- Buildings, cities, industries and appliances
- Forests and land use

Increased Resilience of:

- Livelihoods of people and communities
- Health, food security
- Infrastructure and the built environment
- Ecosystems and ecosystem services

COMMITTED:
13 billion

CO-FINANCING:
16 billion

Rest of GCF funding: 10.3 billion
Sustainable Transport: 1.7 billion

22 Projects on Air Quality
Accessing Climate Finance For BAQ

Who we are, how we work

01
Set up by the UNFCCC, and serving the Paris Agreement

02
Supporting developing countries to transition to low-emission, climate-resilient societies

03
Serving as a hub of the climate finance landscape

COUNTRY-DRIVEN
Readiness programme supports country planning
GCF programming is aligned with country priorities

A RANGE OF FINANCING INSTRUMENTS
leverage blended finance
Piloting support for new financial structures

RISK-MITIGATING, PATIENT CAPITAL
accept higher risks to support early-stage project development & innovations to catalyse climate finance

AN OPEN, PARTNERSHIP ORGANISATION
over 200 Accredited Entities and delivery partners

BALANCED ALLOCATION
targeting 50:50 allocation between mitigation & adaptation

AN OPEN, PARTNERSHIP ORGANISATION

BALANCED ALLOCATION
developing countries supported to develop or secure low emission climate resilient infrastructure, through systemic and/or country-driven resilience planning, funding and/or de-risking of investments, including NBS.

developing countries supported to expand access to sustainable, affordable, resilient, reliable renewable energy, particularly for hardest to reach

developing countries supported to shift toward clean and EE end-use for transport, building and industry sectors, including through electrification, decreasing energy consumption and novel solutions and emerging technologies for Heavy-Emitting-Sectors

local private sector early-stage ventures and MSMEs provided with early-stage capital for innovative climate solutions, business models and technologies, with a focus on adaptation, energy access and transport

national and regional financial institutions supported to access GCF resources, and other green finance, particularly for MSMEs
Thank You
